

Reactor Systems for Process Development Designed to suit your needs

Suurmond introduce their new product **SUURGLASS**. A basic reactor for interchangeable glass vessels from 1 to 5 litres.

The **SUURGLASS** reactors are easy to use and are designed for rapid vessel exchange, allowing for an increase in productivity. With our range of jacketed reactors, you can be sure that you'll find the equipment to suit your needs.

Jacketed Glass Vessel Lab Reactors:

- Borosilicate glass reactor vessels from 1 to 5 liters.
- **Optional components and custom systems:**
To suit your individual specification.
- Complete reactor and circulator packages available
- **Easy set-up:**
Reactor systems are quick to set up and easy to use.
- **Open frame design:**
To maximize user accessibility
- **Pre-configured:**
Off-the-shelf lab reactors from 1l to 5 (6) litres.
- **Time saving:**
Our reactors allow for rapid vessel exchange, saving you time
- **Interchangeable vessels:**
Rapid exchange of vessels, with quick-release vessel clamp and hose couplings.

Used in:

- Chemical synthesis,
- Process development,
- Stirring, dissolving, mixing, and extracting operations.
